The **Company** may alienate tokens in the manner of placing them (in this case, the **Acquirer** becomes the first owner of the relevant tokens). If the **Company** alienates tokens of other persons in the manner of tokens placing (except for tokens issued by a legal entity carrying out the activities of a cryptoplatfrom operator and transferred to the **Company** under a contract and/or title to which has been transferred to the **Company**, and in respect of which the **Company** has obligations corresponding to the rights (claims) of holders of such tokens conditioned upon their creation and placement (rights to civil rights objects which are certified by such tokens) provided for in the "White Paper" declaration relating to such tokens)) or tokens belonging to other persons by power of attorney (i.e. by order and on behalf of another person), the **Conditions of Alienation** shall not apply and the relations arising in this case shall be governed by a separate agreement (for example, by the Agreement on Alienation of Digital Tokens (Tokens) of Legal Entities Other Than Dzengi CJSC in the Manner of Placing, etc.).
- 4.3. The subject matter of the **Agreement** shall be determined by the **Orders** (and in the event of token alienation in trading in tokens – also by the **Company Orders** opposite to the **Orders**) and may provide, among other things, for the **Acquirer's** receipt of the title of property to the tokens (property rights in respect of tokens) alienated by the **Company** for **Funds** in exchange for tokens of other type, etc. (the subject matter of the **Agreement** may be provided in the confirmation specified in sub-clause 6.2.1.3 of clause 6 of the **Conditions of Alienation**, or in the electronic message specified in sub-clause 6.3.2 of clause 6 of the **Conditions of Alienation**, or in the agreement provided for in sub-clause 4.4.2 of this clause). Instead of the **Order** the subject matter of the **Agreement** as well as other conditions of tokens alienation may be determined in a separate agreement, *inter alia* signed by the **Parties** in paper form;
- 4.4.3. when alienating the **Company's** own tokens created by the **Company** or on its behalf by another person (including in the order of their placement), or issued by a legal entity that carried out or is carrying out the activities of a cryptoplatfrom operator, and transferred to the **Company** on the basis of an agreement and (or) the title to which has been transferred to the **Company**, and in respect of which the **Company** bears obligations corresponding to the rights (claims) of the owners of such tokens, conditioned at their creation and allocation (rights to objects of civil rights, which are certified by the **Company**) – along with the constituent parts provided for in sub-clauses 4.4.1 and 4.4.2 of this paragraph – also in the relevant White Paper Declaration;

- 4.5.2. the **Order** satisfied by the trading system of the **Company** or confirmation, specified in sub-clause 6.2.1.3 of clause 6 of the **Conditions of Alienation** (when alienating tokens in trading in tokens) or the **Order** sent by the **Acquirer** and accepted by the **Company**, or the electronic message specified in sub-clause 6.3.2 of clause 6 **Conditions of Alienation**, or the agreement provided for in sub-clause 4.4.2 of this clause (when alienating tokens out of trading in tokens) – in relation to other constituent parts of the **Agreement** (except for the case stipulated in sub-clause 4.5.3 of this clause);

- 4.6. Although the Terms and Conditions, the agreement for participation in trading in tokens, the **Conditions of Alienation** and in appropriate cases – White Paper Declarations approved by the **Company's** head, are considered to be constituent parts of the **Agreement**, they are also present separate (independent) agreements binding upon their parties, regardless of whether or not the **Agreement** is in general considered to be concluded and (or) valid. In case the **Acquirer** has used of the possibility of postponed identification in accordance with sub-clause 4.14 of clause 4 of the Terms and Conditions, the said agreements and (or) the **Agreement** in general shall be deemed to be concluded from the moment specified in sub-clause 4.15.3 of clause 4 of the Terms and Conditions.
- 4.7. - 4.9. The transfer by the **Acquirer** to the **Company** of **Funds** and tokens for the acquisition of tokens of one type may be associated with the acquisition by the **Acquirer** of other types of tokens required for the acquisition of the first type of tokens (in this case, prior to the transfer of the said **Funds** and tokens, the **Acquirer** shall be provided with the form of the corresponding **Order** for the acquisition of tokens of another type). In this case, the **Account of the Acquirer** will reflect and take into account the mentioned tokens of another type.
- 4.10. The **Agreement** is not a standard form contract or a contract of adhesion. The **Company** is entitled to decide at its sole and absolute discretion whether it will conclude the **Agreement** (including with respect to its certain parts) with a particular person or not.
- 4.11. The **Company** is entitled in the cases determined by it at its sole and absolute discretion to carry out transfer of the title of property to tokens (including the ones being placed) to the **Acquirer** on a non-reimbursable (without consideration) and non-refundable (non-repayable) basis (including within advertising actions and other promotional events). The **Company** shall inform the **Acquirer** about such a transfer. The title of property to such tokens shall be considered to emerge on the side of the **Acquirer** from the moment of adding (augmenting) the quantity of these tokens to the quantity of tokens accounted for the **Acquirer** on his **Account** before by the **Company**. The **Acquirer** consents to accept the title of property to any said tokens. From the said moment between the **Company** and the **Acquirer** there shall be deemed to be concluded a contract under which the **Company** transfers to the **Acquirer** the title of property to the relevant tokens on a non-reimbursable (without consideration) and non-refundable (non-repayable) basis in respect of the actually added (augmented) quantity of these tokens. The type and quantity of these tokens shall be determined by the **Company** at its sole and absolute discretion, unless otherwise provided by the agreement of the **Parties**. Clauses 1 and 11 of the **Conditions of Alienation** as well as this sub-clause shall be applied to the relations of the **Parties** under the said contract; other provisions of the **Conditions of Alienation** shall not be applied to them. Special aspects of conclusion, performance, amending and termination of the said contract may be stipulated by the Terms and Conditions, in which case with respect to interpretation and application of the said contract the provisions of the Terms and Conditions shall prevail over the provisions of this sub-clause.
- 4.12. In the **Conditions of Alienation** as well as in the interface of the **Information System**:
- 4.12.1. under acquisition and alienation of tokens (the title of property to the tokens) which are cryptocurrencies (hereinafter for the purposes of this sub-clause referred to as “cryptocurrency”) the **Parties** shall understand acquisition and alienation of the property right to obtain from the **Company** the title of property (to demand from the **Company** to transfer the title of property) to the relevant quantity of cryptocurrency within the time limit of not later than three business days from the date of acquisition of this property right by the **Acquirer** (hereinafter for the purposes of this sub-clause referred to as “the property right”), unless otherwise provided for by sub-clause 4.12.2 of this clause. In the **Information System** with the property right one may carry out all the transactions which can be carried out in the **Information System** with cryptocurrency. The property right shall be deemed to be acquired or alienated at the moment of conclusion of the agreement under which it is acquired or alienated. The fact of acquisition by the **Acquirer** of the property right under the relevant agreement shall create (give rise to) the **Company’s** obligation to acquire the relevant quantity of cryptocurrency from a third party (or to separate out this quantity from the **Company’s** own cryptocurrency) and to transfer the title of property to it to the **Acquirer** within the aforesaid time limit, unless otherwise provided for by sub-clause 4.12.2 of this clause (the said fact shall be accounted on the **Acquirer’s Account** in the form of a record about the same quantity of cryptocurrency as in respect of which the **Acquirer** has acquired the property right as though the **Acquirer** has not acquired the property right but has acquired directly the title of property to the relevant quantity of cryptocurrency). The title of property to the relevant quantity of cryptocurrency shall be deemed to be transferred to the **Acquirer** (to emerge on his side) at the moment of its acquisition by the **Company** from a third party and in the case of separation out from the **Company’s** own cryptocurrency – at the moment of the aforesaid accounting on the **Acquirer’s Account** (at that, the title of property to the cryptocurrency is deemed to be transferred to the **Acquirer** for consideration – i.e. for the price which has been paid by the **Acquirer** for the property right.). The fact of alienation of the property right by the **Acquirer** to the **Company** shall entail termination of the aforesaid **Company’s** obligation, arisen out of acquisition of the property rights by the **Acquirer**, by means of confusion of debts;

- 4.12.2. the provisions of sub-clause 4.12.1 of this clause shall be applied in respect of Leverage-operations (the expression “Leverage-operation” shall be understood in accordance with the Terms and Conditions), under which making investments in change in prices for cryptocurrencies is carried out, – with regard to such cryptocurrencies and with account taken of the following specific features. The relevant property right shall present the right to obtaining from the **Company** the title of property (the right to demand from the **Company** transferring the title of property) to the relevant quantity of cryptocurrency within the time limit prescribed by the agreement between the **Acquirer** and the **Company**, concluded for closing (termination) of the Leverage-operation in a different manner than that provided for by the **Information System**. The fact of acquiring by the **Acquirer** this property right together with the fact of conclusion of the said agreement shall create (give rise to) the **Company**’s obligation to acquire the relevant quantity of cryptocurrency from a third party (or to separate out this quantity from the **Company**’s own cryptocurrency) and to transfer the title of property to it to the **Acquirer** within the time limit prescribed by the said agreement;
- 4.12.3. the provisions of sub-clause 4.12.1 of this clause shall be applied in respect of the cryptocurrency obtained by the **Acquirer** as a result of closing (termination) of Leverage-operations – in the cases in which the **Acquirer** carrying out Leverage-operations has invested cryptocurrency.

5. Procedure for determining the price of tokens alienated by the Company and the terms of disclosure of information about them

- 5.1. The procedure for determining the price of tokens depends on the type of tokens to be alienated (the nature of the rights to the objects of civil rights, the existence of which is certified by tokens, if they certify it) and the method of tokens alienation (in trading in tokens or out of trading in tokens). The token purchase price (the price of buying) differs from the token sale price (the price of sale). - 5.5. Specific prices of tokens alienated by the **Company** shall be posted on the **Company**’s website on the Internet. Having concluded the **Agreement**, the **Acquirer** acknowledges that he has made himself aware of these prices and agrees with them. In case of sending **Orders** which provide for prices of tokens that are different from those which are posted on the **Company**’s website on the Internet, such **Orders** may be performed at these prices (depending on the actual demand and supply for the relevant tokens in the **Information System**).
- 5.6. **Orders**, depending on their amount (volume), taking into account sub-clause 6.2.1.3 of clause 6 of the **Conditions of Alienation** may be executed in parts, and the price at which they will be executed in parts may differ from the price for the tokens that the **Acquirer** sees in the **Information System** when submitting the **Orders**.
- 5.7. Information on the **Company**’s own tokens, created by the **Company** or on its behalf by another person and placed by the **Company**, is disclosed by the **Company** by means of acquaintance of the **Acquirer** with the content of the corresponding White Paper Declaration, approved by the head of the **Company**, which is a constituent part of the **Agreement**.

- 5.8. The **Company** may disclose information on tokens created by other persons (not on behalf of the **Company**) by familiarizing the **Acquirer** with the content of the relevant White Paper Declarations.
- 5.9. Information on tokens that are exclusively cryptocurrency (do not certify that their owners have rights to the objects of civil rights) shall be clarified (obtained) by the **Acquirers** themselves.
